In Re: Approval Order – PSD Major	:	
Modification to Add New Unit 3 at	:	
Intermountain Power Generating	:	STIPULATED MOTION TO
Station, Millard County, Utah	:	CONTINUE PROCEEDINGS
Project Code: N0327-010	:	
DAQE-AN0327010-04	:	

---

The Utah Chapter of the Sierra Club (“Sierra Club”) and the Executive Secretary of the Utah Air Quality Board (“Executive Secretary”) hereby move to stay proceedings in the above-captioned matter and continue this matter until the parties can propose a revised schedule for further proceedings.

On July 20, 2007, Holme Roberts & Owen withdrew as counsel to IPSC in this matter. Since then, IPSC has been unrepresented by counsel in these proceedings. On August 1, 2007, Van Cott Bagley Cornwall & McCarthy filed a notice of appearance on behalf of the IPP Unit 3 Development Committee, which is not currently a party to this matter. Because these circumstances have created uncertainty regarding how these proceedings will move forward, the other parties to this matter and the parties to the matter of the Approval Order for the Sevier Power Company plant (DAQE-AN2529001-04) agreed to extend the time for serving expert reports related to the scheduled joint

hearing on Integrated Gasification Combined Cycle ("IGCC") and the hearing on the remaining issues in this matter (the Approval Order for New Unit 3) until August 31, 2007. Several items of fact discovery from IPSC and Utah Associated Municipal Power Systems in this matter also remain outstanding at this time awaiting the appearance of new counsel on behalf of IPSC.

The Sierra Club and the Executive Secretary request that the Board stay all further proceedings in this matter (the Approval Order for New Unit 3) and postpone the hearing currently scheduled for November 26, 28 and December 5 until the representation of IPSC is resolved and the parties can propose a new schedule for further proceedings.

This request does not extend to the scheduled November 12, 2007 hearing regarding IGCC at the Sevier Power Company facility, which would proceed as scheduled. However, the November 12, 2007 hearing would be limited only to the issue related to IGCC raised in Sierra Club's Second Amended Request for Agency Action in the matter of the Sevier Power Company. The issue of IGCC related to the Approval Order for New Unit 3 in this matter would be deferred to a future date.

Although the circumstances of further proceedings are unclear at this time, the Sierra Club and the Executive Secretary anticipate that a new hearing on the issues in this matter – including the issue of IGCC related to the Approval Order for New Unit 3 – could be set for March 2008, approximately a three month continuance of this matter. However, the Sierra Club and the Executive Secretary request that the Board continue this matter without setting new hearing dates at this time to allow the parties to this matter to confer and propose a new stipulated schedule for further proceedings.

Dated: August 24, 2007

Respectfully submitted,
